

## **ABSTRACT OF THE DISCLOSURE**

[035] Methods and systems consistent with the present invention provide detailed billing information from a plurality of billers, including line-item data, wherein the line-item data for each biller is determined by the biller. A request for detailed billing data associated with a selected one of the plurality of billers is received. The requested data is retrieved and displayed. The displayed data may be formatted in a user interface also determined by the biller.
